later news from Kansas has created intense ex-citement there, that \$5 mg had been raised, and that men will be sent to relieve the proshavery citizens of the Territory. A high state of feelings exists all along the river and bors der counties of Missouri.

Public Meetings are held, and large numbers

of men volunteer to go and aid the Governor of Kansas. Men of discretion and property will go, and with the determination to remain, until the present state of affairs is put down and peace and order restored in the Territory Circulars and appeals, signed by prominent

and influential men, are being freely circulatd, asking aid to drive Lane and his party out of the country.

Large bodies of Missourians have doubtless by this time entered the Territory, and a sangulary and bloody conflict is daily looked for.

The St Louis Democrat has the following

After the fight at Franklin, two hundred mer of Lawrence marched to the prosslavery camp at Washington Creek and ordered them to die perse. The enupretreated, and the Free State men occupied the fortified block house.

At Lecompton, I eavy firing was heard in that direction dueing the day. A sanguinary engagement is supposed to have taken place.— Result not known.
